SUMMARY

Industrial Information Technology undergraduate experienced in Agile delivery, project scheduling, and workflow optimization across the project lifecycle. Skilled in facilitating Scrum ceremonies, sprint planning, and backlog refinement utilizing Jira and ClickUp. Proven track record in cross-functional stakeholder engagement, risk assessment using RAID logs, and resource allocation to align technical teams with delivery milestones. Seeking a Project Management Internship to drive structured project documentation and operational execution.

EDUCATION

BSc (Hons) in Industrial Information Technology **Reading for Bachelor's Degree**

- Uva Wellassa University of Sri Lanka
- Focus areas: Information Systems, Project Management, and Tech-driven Sustainability Research.

Diploma in Information Technology
ESOFT Metro Campus | Apr 2022 – Apr 2023

CERTIFICATIONS

- Agile Scrum Master – Simplilearn (Certified Scrum Master Coursework)
- Jira Project Management – Great Learning

KEY SKILLS

- **Project Management & Frameworks:** Agile Methodologies, Scrum Framework, SDLC (Software Development Life Cycle), Project Lifecycle Management, Project Scheduling, Sprint Planning, Daily Stand-ups, Backlog Refinement, User Stories, Kanban
- **PM Tools & Collaboration:** Jira, ClickUp, Confluence, Trello, Notion, GitHub Issue Tracking
- **Planning & Governance:** Risk Assessment & Risk Mitigation (RAID Logs), Resource Allocation, Budget Management, Scope Management, Project Documentation, Operational Execution, Stakeholder Communication
- **Stakeholder & Leadership:** Stakeholder Engagement, Cross-functional Coordination, Team Leadership, Process Improvement
- **Technical Background:** Information Systems, REST APIs, Python, React.js, MySQL, Database Architecture

PROFESSIONAL EXPERIENCE

Project Manager Intern | Trex Labs (Private) Limited **Nov 2025 - Present**

- Supported senior project managers in daily project coordination, team collaboration, and administrative workflows across active sprint cycles.
- Maintained centralized project documentation across 20+ sessions, accurately capturing meeting minutes, action items, and decision logs to ensure team alignment.
- Designed and prepared stakeholder presentation decks (PPTs) for progress reviews, project updates, and operational status reporting.
- Handled company digital communications and social media outreach, supporting cross-functional visibility and external engagement initiatives

---

PROJECTS

AeroHive: Autonomous Drone Fleet | Technical PM (Simulation & Planning) [Case Study ↗]

- Governed end-to-end risk management and RAID logs in Notion, executing failsafe return protocols with a 100% collision-free record in mock trials.
- Structured a 4-sprint Agile roadmap, organizing and tracking 90 Story Points via ClickUp for cross-functional workflows.

AegisLogix: AI Supply Chain Platform | Project Lead (Architecture & Planning) [Case Study ↗]

- Coordinated 3 squads (IoT, AI, Frontend) to build PRD specifications and an event-driven telemetry platform powered by Apache Kafka.
- Managed workflow boards and sprint backlogs on ClickUp, tracking 63 Story Points from ingestion to carrier API integration.

ColdPulse: Last-Mile Vaccine Cold-Chain | Scrum Delivery Lead [Case Study ↗]

- Managed an Agile delivery framework on Jira to architect an IoT cold-chain tracking pipeline for temperature-sensitive pharmaceutical distribution.
- Formulated PRD specifications and automated breach-alert workflows, ensuring strict SLA adherence within cold-chain temperature thresholds (2°C–8°C).

e-Transit: Smart Transit Ecosystem | Scrum Delivery Lead (Simulation) [Case Study ↗]

- Led 2-week Scrum sprints for an offline mobile POS, defining non-functional requirements of < 400ms tap latency.
- Mapped automated reconciliation workflows, reducing simulated end-of-day cash tallying time from 2 hours to under 1 minute.

InfecSure: AI-Assisted Infection Monitoring | Project Lead & Full-Stack Developer

- Planned development roadmap and delivered an ML predictive web application using Python (FastAPI), React, and Firebase.

VOLUNTEER EXPERIENCE

Vice President (Admin) |Rotaract Club of Uva Wellassa University

Aug 2025 - June 2026

- Directed administrative operations and communication strategies across a 1,000+ active volunteer network, overseeing the execution of 30+ large-scale community initiatives.
- Coordinated workflows and governance across a 32-member Board of Directors and 40+ committee leads, managing resource allocation and operational milestones.
- Maintained centralized executive documentation, board meeting minutes, and progress reporting to ensure seamless club governance.

Head of Membership Development |IEEE IAS UWU Student Branch Chapter

Mar 2026 - Present

- Spearheaded strategic campaigns to boost member recruitment and engagement, expanding the chapter's technical student network.
- Acted as a liaison between the student branch chapter and regional leadership to foster cross-university collaboration.
- Organized interactive technical workshops and community awareness sessions to drive student participation

Media Team Head | IMPETUS Research Conference **Apr 2026**
(IEEE & Faculty of Applied Sciences of Uva wellassa University Collabaration)

- Led a 12-member media team and directed live streaming operations across 6 parallel tracks, delivering zero broadcast downtime for 300+ virtual attendees.
- Directed the live streaming technical setup and digital media infrastructure, delivering a seamless broadcast across all research tracks.
